Guelma, Algeria

Professional Profile

Junior Software Engineer and Full-Stack Developer passionate about solving complex problems efficiently. Backed by 2 years of practical experience designing and developing robust web and mobile applications, as well as enterprise systems. Proficient in a wide range of modern technologies (Laravel, Next.js, ASP.NET Core, Node.js, Flutter). Proactive and accustomed to clean software architectures (Clean Architecture, TDD), I am seeking a Software Engineer position to build scalable, innovative, and high-impact solutions.

Professional Experience

Junior Software Engineer

Mar 2026 – Present

Algerian Solb (formerly Sider El Hadjar) — Annaba, Algeria

- Developing a large-scale integrated Human Resource Management System (HRMS) for over 6,000 employees.
